Do you need anything else?

FYI, a reporter sent me this Facebook page. I plan to respond with our statement from yesterday:

EPA staff are conducting groundwater monitoring for nitrates and other contaminants in the Central Sands area.

Ex. 6 Personal Privacy (PP)

Ex. 6 Personal Privacy (PP)

This week the EPA will be out around the [Ex. 6 Personal Privacy \(PP\)](#) Central Sands Dairy (Juneau Cty Township of Armenia) drilling a total of 41 boreholes to take water samples to test for nitrate levels, phosphorus, coliform, ammonia, and other contaminants. Samples will be taken from various spots around the area, around [Ex. 6 Personal Privacy \(PP\)](#) agricultural fields, and all the way to the Wisconsin River. EPA personnel shared that on Thursday they will shift their focus to testing undisclosed residential wells in the area.

KARMA!

Hi Allison, I am looking for information on EPA's visit to a CAFO on Juneau County on Monday to take ground water samples.

I was told that Cheryl Burdett was the contact, but I have not yet heard from her.

I'd like to know why you were there, what you were looking for and what prompted the visit?

Thanks

Lee
